TOUR ACTIVITY LEVELVery Active**In order to guarantee high and low tide in same day - timing of the tour is essential as the tides do not wait for anyone! In order to ensure the safe and proper timing for the delivery of this experiential excursion, all guests should have the ability to enter and exit a 12 passenger Mercedes Sprinter Van, frequently throughout the day. The van is high enough that guests have the ability to stand up straight while entering and getting to vehicle seat. There is a moderate amount of walking and stairs at two of the main attractions and some roads travelled are bumpy for short periods of time**To ensure all tour guests safety and comfort we'd like to remind all guests that there is room and seating for passengers only and that all carry on items will need to be stored on each person's lap****

Please do not hesitate to contact us with any further questions you may have or to book the tour!
